

ResMed

“The product saved us about 3-4 man months worth of development time”

THE PROJECT:

Porting a medical device system from pSOS to Nucleus

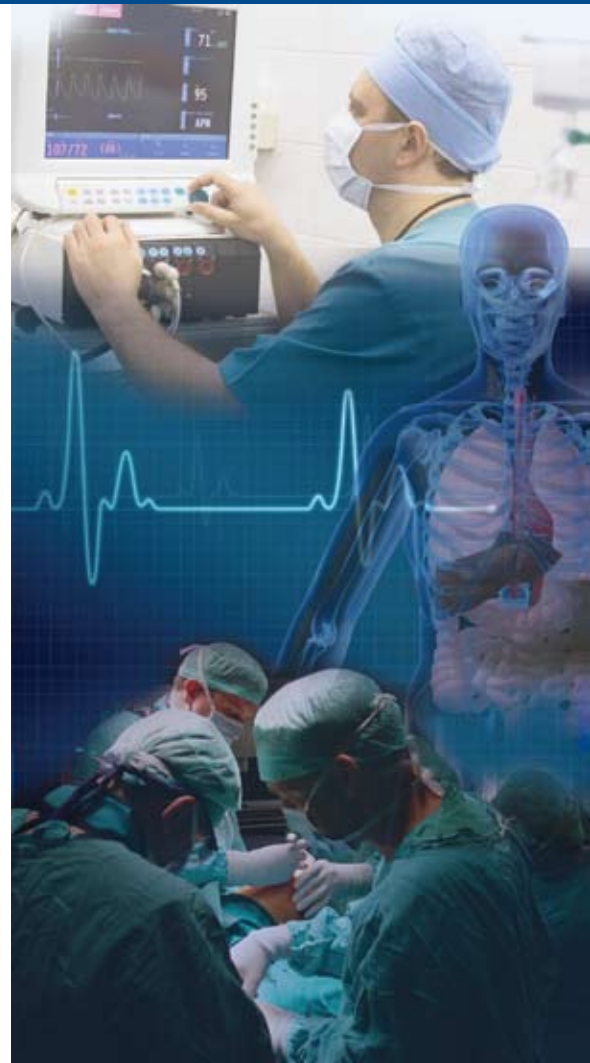

ResMed develops applications for medical devices used for the treatment of Obstructive Sleep Apnea. They used OS Changer for a major part of the development to port the system from pSOS.

Customer: Ken Lee, ResMed

On Performance: “The product was precisely what we wanted and the support was nothing short of excellent. The product met 3rd Party Acceptance requirements (in the context of our medical device) as specified by FDA. We would consider using this product again.”

On Simplicity: “The product was straight forward to use.”

On Time: “The product saved us about 3-4 man months worth of development time. Originally we had envisaged on doing the RTOS conversion ourselves.”

ABOUT RESMED

ResMed is a leading manufacturer of medical equipment for the treatment and management of sleep-disordered breathing and other respiratory disorders. They are dedicated to developing innovative products to improve the lives of those who suffer from these conditions and to increasing awareness among patients and healthcare professionals for the potentially serious health consequences of untreated sleep-disordered breathing.
