Vel Tech Rangarajan Dr.Sagunthala R&D Institute of Science and Technology

"…Overall, the training was excellent and well-delivered. "

THE PROJECT:
RTOS SIMULATOR™ and MapuSoft's Academic Program

MapuSoft's Academic Program (MAP) strives to provide faculty and students with design tools and services necessary to keep up with today's rapidly changing embedded technology at a very low cost. MapuSoft's MAP products consist of: RTOS Simulator, and Application and Platform Profilers.

RTOS Simulator supports the following popular operating systems:

- VxWorks (Intel/WindRiver)
- Nucleus (Mentor Graphics)
- POSIX (IEEE standard)
- micro-ITRON (Japanese standard)
- Windows (Microsoft)
- RTLinux(WindRiver)
- FreeRTOS(AWS)

- ThreadX (Express Logic)
- OS Abstractor (MapuSoft)
- pSOS (Intel/WindRiver)
- µC/OS (Micrium)
- Linux
- VRTX

Testimonial:

" We thank the MapuSoft team for the wonderful training. The trainers taught the concepts well to our faculty members.

They gave a detailed introduction about OS, APPCOE, and generating codes in Raspberry Pi. They also explained installation procedures and code optimization in detail.

Overall, the training was excellent and well-delivered. "
